

Dearest,

For once it's I who have had no spare-seconds to write. Your wonderful letter #10 came, with the pictures which I carry around to broad over. But I wanted some of you only, & good ones at that, and puss! Do send me them.

As for loving you, I can't and won't ever cease! I'm sorry I teased you my dear darling - you need never worry an instant, because you are the love of my life and I just couldn't live without you or the thought of you!

Life has been most hectic these past days, I'll write at length to tell you why later.

I do so understand about planes to Miami & how they affect you, having the same problem myself only in reverse! If I keep having to watch them go out to hags day after day for a year I'm rather afraid I'll become slap happy.

Understand completely that I'm yours forever.

Good bye, my love -

Phil
