Dear Krieg Family,

You were really wonderful to get together such a fine set of Christmas presents in times like these! I just loved my things, and William was equally delighted. They arrived just around Christmas too, which is always an added pleasure.

Since then we have been having some rather trying times, however, and I've been neglecting my duty as your reporter on our activities (at least

Dear Krieg Family,

You were really wonderful to get together such a fine set of Christmas presents in times like these! I just loved my things, and William was equally delighted. They arrived just around Christmas too, which is always an added pleasure.

Since then we have been having some rather trying times, however, and I've been neglecting my duty as your reporter on our activities (at least

part-time reporter!) We are hoping that whatever this strange malady of mine is, it will go away in time for us to enjoy a good trip HOME. How I wish we could all get together - including of course, Barbara Patricia! She will be an enormous great girl before her aunt and uncle see her, but we were thrilled to hear about the event.

Thank you, more than I can say, for your kindness and generosity, not to mention all the trouble you went to! But your best present to me was made a long time ago - William himself.

Affectionately,
Philinda
