W.A. Forces

Feb 22nd 1944.

(L-329)

Dear Bill

In case we don't get to Lagos before you leave we send you & Philinda this very humble memento of us & 82 Div. The flag is one that General Bruce flew on his car and we had the shield with the Divisional sign embroidered for you, so that if & when you do hear of our exploits from time to time you might look at it and think back on the crazy Lagos days when we laughed & surfed together & let the world go by.

With our most affectionate regards & every good wish to you both, & the best of luck in the future.

Yours ever

General Bruce & Hammy.
