Dear Mother: -

I intended to write in the middle of the week to thank you for the cookies and the candy, but just got around to it at the usual time today. The cookies were fine: the fellows ate them up in no time - even the last one which I had expected to eat at my leisure. I like the good old oatmeal cookies best of all as they always remind me of my youthful, or more youthful, days. The candy was as you said, hard on the outside, but inside it was fairly soft and melted in your mouth. The stuffed dates were good, too.

I was sorry to see that you forgot to send my sleeveless sweaters. I expect you didn't see them as they were off to the side in the closet. As I remember it, when

 we were packing & thought of them and said we'd have to leave room for them, but then I forgot apparently to get them out so they didn't get put in. Anyway, I haven't got them so they must be at home. I think you had better send them as soon as possible as I can't wear my brown suit without them - the vest is too tight.

Did you know you sent me one of daddy's shirts? I'll bet he's sore.

Bob just reminded me of his trip home in a car at Xmas. First they had a flat tire and couldn't get it fixed for a long time - I think they couldn't get it off the wheel. Then after being almost run into several times they were sideswiped by another car which sent them skidding into a danger sign which crushed the running board. In addition, they only missed a telephone pole by inches. And to top it all they didn't get to Charles Town until Sunday morning although it isn't much farther than Newark. I will try to get a ride home spring vacation.

You will be glad to hear that the fraternity intramural teams have been doing well. The basket ball team defeated the Sigma Chis 17-5 while the hockey team beat them 7-0, a large score for hockey. In the quarter finals the hockey team beat Sigma Phi Epsilon by a decisive score. The semi finals will be played between the Phi Gams and the tri-Kaps as soon as the exam period is over, and the winner will play the Zetes for the championship. We do not expect to beat the Phi Gams as they have a good team this year while ours has a few weak spots. The basket ball play offs will be held after the exam period too. The Psi-A's will probably win it. We have a good chance of winning the track and baseball tournaments, however.

Our last exam in Latin was last Friday. I am now finished with that course as there is no final in it. My first exam is one week from tomorrow - French. The Chem. exam is the next day with poly. sci on Thursday and History on Saturday.

I strained my eyes studying Friday night, so I am not using the typewriter tonight. If they aren't better tomorrow I will go up to the Clinic as you know it doesn't pay to take chance with your eyes, especially at exam time. I think I will go up to the house tonight and listen to Eddie Cantor. I heard him last Sunday too and thought of you. Dick's house is turning 'em away with the flu, but so far I have not been troubled. Bob has a bad cold, but he hasn't had any more nervous spells.

It has been pouring rain all day, no skiing now.

Give my love to all, especially the sick. Keep well yourself, don't worry, and don't work too hard. Love William
