Monday 12:15 A.M.

Dear Mother:-

I was very glad indeed to get your letter with the money order yesterday evening. That fixes everything up nicely and now I can have a few things done, like getting a haircut, a thing I need very much. I have already told you my plans for coming home, and I think you will agree that that will be better than the R.R. I definitely decided today to go with the taxi-man, as another fellow I might have gotten a ride with clear to Columbus is not going to have room and I don't think his price is right anyway. Now, can you meet the train in Columbus at the usual time - 11:55? Of course, there is always a chance of being delayed by a flat tire or engine trouble, so if that should happen, I would let you know as soon as possible. It will seem very natural to pull into the Columbus terminal from Cleveland.

I am expecting a very busy week this week, so I will be even more ready for the vacation when it comes. Tomorrow I have to write a paper on some current event topic for poly sci. Tuesday I have to prepare for one regular and one make-up quiz in Chemistry. Wednesday I have to write a book review in French for French. Thursday there will not be so much doing, and I think I will see the movie, "42nd St.", supposed to be very good. After my good day that I told you about, came the inevitable reaction. Saturday we got our French exams back and I only got a low C, and we had a quiz in poly sci for which I had to take an unprepared. On the whole a very disconcerting day. I hope to be able to get a B out of French in the end, however, as the prof. is a nice fellow in spite of being an extremely poor teacher. I think he will give me a break if he thinks I have been working hard.

I am sending my laundry case off tomorrow, or rather, this morning. I haven't had any done for three weeks so there is a lot. I expect this will be my last letter, so love to all of you. C U Soon!

William

All this in addition to the regular assignments
