Dear Aunt Vonie: -

I certainly was sorry to hear about your accident. It just makes me shudder every time I think of it. I can't imagine how you happened to do it, but I suppose it is too late to think of that now. I hope you are getting along all right, and I expect Mother to keep me informed about your progress.

How do you like my new stationery? The seal in the upper corner is that of our fraternity. One of the brothers has a press and prints this stationery at home. He took orders last spring and sold about \$100 worth. I did not buy much, as I seldom write letters by hand.

During this past week I have been busy getting every thing straightened up in my room. My room mate did not come until Wednesday, so we didn't get fixed up until Friday. The rooms are very comfortable now. They are so small we hardly know what to do with our furniture, and even now there is hardly now open space than you need to turn around, but we like it. We have all been very busy rushing our sophomore delegation. Every night we go calling and bring boys back to the house. Last night we had a party for them. A good time was had all around.

I hope dear Aunt Mamie is feeling better than on the day I left. Give her my love and tell her I often think of her. Tell Mother I will write when the laundry case arrives.

Love to all
William
